

## REMARKS

Applicant thank the Patent Office for the careful attention accorded this application and respectfully requests reconsideration in view of the Amendment above and remarks set forth below.

In response to the Office Action dated March 22, 2005, Applicant has canceled Claims 25-34 without prejudice or disclaimer and has added new claims 39-43 which are based on disclosure set forth in Figs. 2-12B and at Pages 10-14 and elsewhere in the present Specification.

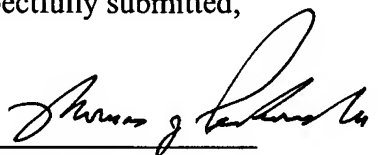

Applicant also submits herewith a Terminal Disclaimer to overcome any double-patenting rejection in view of Applicants' U.S. Patent No. 6,630,656.

Applicant has also amended the Title to Invention to better reflect the claimed invention.

In view, therefore, of the Amendment and Remarks set forth above, the present invention defined by new Claims 39-43 is firmly believed to be neither anticipated by, nor rendered obvious in view of the prior art of record, and that the present application is now in condition for allowance.

Reconsideration is respectfully requested and favorable action is earnestly solicited.

Respectfully submitted,

Thomas J Perkowski, Esq.
